

WORK EXPERIENCE

Front-end Developer

Umotional Ltd.

AI Solutions for Transport & Mobility

March 2018 - present (4 years +)

- Dealt with any web related tasks
- Developed and maintained two complex Vue.js applications, as well as one-page websites or custom landing pages
- Converted JS+PHP monolith to a lightweight, Vue.js v2 + Silex application
- Developed a brand new intermodal planner front-end application using Vue.js 3

Vue.js v2, v3, JavaScript, Sass, PHP 7.0, 7.4, Silex v2.3, Docker, Mapbox GL JS, Mapbox.js, Leaflet, Git, Jenkins, Bash

Back-end Developer

5DM.cz Ltd.

The #1 cashback portal in the Czech Republic

March 2017 - March 2018 (1 year)

- Continuous development of current and new integrations for various international e-commerce platforms
- Syncing lists of orders from a bunch of terribly outdated APIs to a local database, where we could process the data and calculate commissions for each user every day
- Was responsible for a few front-end tasks as well

PHP 7.0, Nette framework, Elasticsearch, Redis, Docker, JavaScript, jQuery, Git, Jenkins

WEB DEVELOPER

RELEVANT SKILLS

- Full-stack, back-end, & front-end development
- Clear communication
- Reliable delivery each sprint
- PHP 8, 7.x, 5.x, 4.4
- Vue.js, jQuery, JavaScript
- MySQL, MariaDB, PostgreSQL
- Git, Jenkins, Docker

Full-stack Developer

Small network of 3 dropshipping e-commerce solutions

eOD.cz Ltd.

September 2015 - September 2016 (1 year)

- Maintained and developed integrations with partners (syncing products, category trees, orders, and order states).
- Implemented customizations of the web sites

PHP 7.0, 5.6, MySQL 4,5, JavaScript, DevOps

Junior - Senior Developer

eBRÁNA Ltd.

Digital agency providing marketing and web development services for small and medium-sized companies

June 2012 - June 2015 (3 years)

- Started as a Junior dev, doing mostly simple tasks like editing templates, building custom forms, or basic custom queries and data mining
- After about two years, promoted to a senior position
- My focus was two-way integrations of economic software, warehouse management software, and payment gateways with our e-commerce solution
- Achievement: I've put a stop to FTP deployment and introduced Git, Jenkins, and a new workflow to the whole programming team

PHP 5.6, 4.4, JavaScript, jQuery, MySQL 4,5, Git, Jekkins

EDUCATION HISTORY

3 Years Bachelor Program in Information Technology

University of Pardubice

2010 - 2013

- Unfinished, dropped out in favor of my first full-time dev job

4 Years Program in Information Technology

High School and College of Applied Cybernetics s.r.o.

2006 - 2010

- Focus on Computer Networking
- Completed by obtaining a high school diploma

SELECTED SIDE-PROJECTS SHOWCASE

Remote Weekly

remoteweekly.ai

2019 - now

Remote Weekly helps remote professionals discover new job opportunities in verified, remote-first companies.

PHP 7.4 ~~7.0~~, ~~Symfony 3~~, Silex v2.3, OpenAI GPT-3, MariaDB 10, Algolia, JavaScript, Vue.js v2, Mapbox GL JS

Navihub

(formerly accesible at navihub.net)

2015 - 2017

Full-text venue search in your neighborhood aggregating Google Places, Nokia Here, Foursquare, and Yelp APIs.

The goal with Navihub was to learn a new language, not to create a profitable startup.

Ruby on Rails 4, PostgreSQL, CoffeeScript

Tasklog

tasklog.app

2013 - now

Almost the oldest code I've written still running in production.

Tasklog (formerly Tomatoid) was a Pomodoro timer, turned Time tracker, turned Task manager, turned robust solution helping freelancers with time tracking, task management, client & project management, reporting, and timesheets.

PHP 7.4, ~~7.0~~, ~~5.6~~, ~~MySQL 5~~, MariaDB 10, jQuery, Javascript
