

PETR NAGY

Full-stack developer · Based in Prague, Czechia

WORK EXPERIENCE

Full-stack Developer Zanzisan (formerly Fitlavia)

remote

The #1 fitness app in Slovakia.
November 2023 - present (2 years +)

- Joined shortly after the market validation via WordPress MVP.
- Converted Figma designs into an Ionic + Vue.js mobile and desktop PWA.
- Connected the frontend to a custom Symfony 6.4 REST API and a Strapi CMS instance.
- Deployed a separate Node.js WebSocket server on a dedicated VPS to handle real-time app communication.
- Designed, developed & maintained the whole infrastructure.

Vue.js v3, Ionic, Sass, PHP 8.1, Symfony 6, Strapi, NodeJS, Docker, Git, ReactJS, Github Actions, Cypress

Founder, Full-stack Developer Super Stack Studio

remote

Web development agency
November 2023 - present (2 years +)

- Started as web development agency.
- Offered web presentations, eCommerce sites, blogging solutions, landing pages.
- Pivoted to DataFlow Studio — a SaaS product connecting ERP and accounting software to Strapi CMS.

PHP 8, Symfony 8, MariaDB 12, Vue.js, TypeScript, Redis, Strapi

Front-end Developer

remote

Umotional Ltd.

AI Solutions for Transport & Mobility

March 2018 - present (8 years +)

- Dealt with any web related tasks.
- Developed and maintained two complex Vue.js applications, as well as one-page websites or custom landing pages.
- Converted JS+PHP monolith to a lightweight, Vue.js v2 + Silex application.
- Developed a brand new intermodal planner front-end application using Vue.js 3.

Vue.js v2, v3, JavaScript, Sass, PHP ~~5-6~~
~~7-0~~, 7.4, Silex v2.3, Docker, Mapbox GL
JS, Mapbox.js, Leaflet, Git, Playwright

SDM

Back-end Developer

remote

PlnaPenezenka by 5DM.cz Ltd.

The #1 cashback portal in the Czech Republic

March 2017 - March 2018 (1 year)

- Wrote cron jobs and sync scripts to pull order lists from various legacy partner APIs into a local database.
- Processed the aggregated data to calculate daily user commissions and payouts.
- Was responsible for a few front-end tasks as well.

PHP 7.0, Nette framework, Elasticsearch,
Redis, Docker, JavaScript, jQuery, Git,
Jenkins

Full-stack Developer

remote

Small network of 3 e-commerce solutions

eOD.cz Ltd.

September 2015 - September 2016 (1 year)

- Maintained and developed integrations with partners (syncing products, category trees, orders, and order states).
- Implemented customizations of all three e-commerce instances.

PHP 5.6, 4.4, MySQL 4,5, JavaScript, jQuery

Senior & Lead Developer eBRÁNA Ltd.

on-site

Digital agency providing marketing and web development services for small and medium-sized companies

June 2012 - June 2015 (3 years)

- Started as a Junior dev, doing mostly simple tasks like editing templates, building custom forms, or basic custom queries and data mining.
- After about two years, promoted to a senior position
- My focus was two-way integrations of economic software, warehouse management software, and payment gateways with our e-commerce solution.
- Achievement: I've put a stop to FTP deployment and introduced Git, Jenkins, and a new workflow to the whole programming team.

PHP 5.6, 4.4, JavaScript, jQuery, MySQL
4,5, Git, Jenkins

SELECTED SIDE-PROJECTS

Remote Weekly

remoteweekly.ai

2019 - 2024

Remote Weekly helps remote professionals discover new job opportunities in verified, remote-first companies.

```
PHP 7.4 7.0, Symfony 3, Silex v2.3, OpenAI  
GPT-3, MariaDB 10, Algolia, JavaScript,  
Vue.js v2, Mapbox GL JS
```

Navihub

navihub.net

2015 - 2017

Navihub never left closed beta status. And yet, it's included here. Why?

Because the goal with Navihub was to learn a new language. I chose Ruby on Rails with PostgreSQL and let me tell you; I have never seen a framework designed so elegantly.

```
Ruby on Rails v4, PostgreSQL,  
CoffeeScript, Google SDKs (Maps, Places),  
Nokia Here + Foursquare + Yelp APIs
```

Deepwork Café

deepwork.cafe

2021 - 2024

24/7 online radio making your work easier and more focused.

Weeks of unique, carefully selected tunes.

```
Vue.js, Symfony 4, S3 Object Storage
```

Tasklog

tasklog.app

2013 - now

Robust solution helping freelancers with time tracking, task management, client & project management, reporting, and timesheets.

```
PHP 7.4, 7.0, 5.6, MySQL 5, MariaDB 10,  
jQuery, Javascript
```
